Sybrina's Phrase Thesaurus was first offered for sale, in 1993, in pdf format with a hyperlinked table of contents. The tool is still available at PhraseThesaurus.com. The book has been available, in its entirety, as an Ebook since 2009. The massive size of the book, well over 800 pages, made it financially impossible to offer it in print until the print-on-demand industry became easily available to independent authors and publishers. In order to keep the price of the books in print lower, the book has been split into 3 smaller sections.

The books are sub-titled and described as follows:

MOVING PARTS – Part 1 - This book encompasses the top half of the body, describing how it moves and functions. Part 1 covers the everything to do with the head, including voluntary and involuntary actions such as listening, blushing, breathing, winking, coughing, singing and much more.

MOVING PARTS – Part 2 - This book encompasses all of the lower body below the neck, describing how it moves and functions. Part 2 covers topics such as shrugging shoulders, reaching out to touch someone, heart beats, shivering, aching bones, stomach churning, hand gestures, posing, sitting, walking, running and much more. The Body In Motion section includes jumping, skipping, turning, sitting down and getting up, bending, stretching, squirming, falling and body in repose. The Daily Activities section includes creative ways to describe eating meals, driving cars, using a telephone, changing clothes and more. The Figures (or Expressions) Of Speech section includes ideas for writing smooth flowing conversations. Much more than just "He said, She said". Finally the Emotions section contains descriptions of emotions. Joy, anger, fear, sadness and many more.

PHYSICAL ATTRIBUTES – This book encompasses all of the body describing how different parts of the human body look, from head to toe. This book covers topics such as facial shapes and expressions, age and youth. There are descriptions for bald heads and different kinds of hair styles and colors. There are descriptions for skin colors and textures and all kinds of ways to describe eyes, ears, noses and mouths. The rest of the body is described in great detail as well.

EARTH VIEWS - This book consists of Landscapes (plains, hills, mountains, valleys), Waterscapes (waterfalls, streams, rivers, ponds) and Skyscapes (morning, sunny, cloudy, rain, space, stars) and much more. There is also a section for **COLORS** with descriptions for all the colors in the rainbow plus other things like metals, shiny, light, dark, day and night.

Enjoy them all!

A note from Sybrina:

Once upon a time I wanted to be a writer more than anything in the world. I could tell stories with the best of them, so I just knew I could write well, too.

Funny thing about writing, though...it's nothing like telling a story. I bet you've noticed that, too. I'd even go as far as to bet there have been times...plenty of them, when you've been writing along just fine, then suddenly, you hit a brick wall over how to describe the simplest thing.

25 years ago, there wasn't anything much available other than Webster's Dictionary or Roget's Thesaurus and a couple of synonym and antonym books. So, I decided I'd start to put together what I was looking for, myself.

Those were the prehistoric days, before p.c.'s. Each bit of information I gathered was tediously placed behind index tabs in spiral notebooks...lots of notebooks and tons of tabs. It very quickly became a monstrous task. When I got my first computer, with Word Perfect's word "search and replace" features, I felt like I'd finally arrived in the 20th century but the best was yet to come. Word for Windows made cross-referencing all those phrases to all of their relevant categories a breeze.

Compiling this book has been a labor of love. Along the way, I have discovered my true writing skills lie, not in writing out my stories, but in organizing and categorizing information. Maybe someday, I'll actually have time to write my own great novel, but for now, I'm content in the knowledge that my work on Sybrina's Phrase Thesaurus has made it easier for other writers to get past their own brick walls. I hope you will enjoy reading the phrases in this tool as much as I have enjoyed compiling them.
